

COURANT INSTITUTE OF MATHEMATICAL SCIENCES NEW YORK UNIVERSITY

Center for Atmosphere Ocean Science

We invite applications to our interdisciplinary PhD program in Atmosphere Ocean Science and Mathematics

This unique program combines disciplinary training in atmosphere ocean science with courses in advanced mathematics, applied probability, and scientific computing.

We are looking for applicants with a strong background in mathematics, physics, or a related field and an enthusiasm for applying fundamental science to the real world.

Scholarships are available to suitably qualified applicants.

Application deadline: January 4.

Further information about the PhD program and the application procedure can be found under <http://caos.cims.nyu.edu/page/graduate> and <http://nyu.edu/gsas/apply>.
